PRODUCTIVITY REVOLUTION THROUGH EFFICIENT EQUIPMENT & TECHNOLOGY

**CRAFTING MACHINERY
THAT FEEDS THE WORLD**

SCIONTEK MACHINERIES MANUFACTURING PLC

About Us

Sciontek Machineries Manufacturing PLC Proudly Partners With Kamco, A Trailblazing Agricultural Innovator With A Rich History Dating Back To 1973. Born Out Of A Joint Venture Between Kerala Agro Industries Corporation Ltd. (Kaic) And The Government Of Kerala, Our Parent Company Has Been Setting New Standards For Farming Practices For Decades. With An Unwavering Commitment To Excellence And Quality, Our Parent Company Has Delivered Groundbreaking Solutions That Empower Farmers To Boost Productivity And Efficiency.

Through continuous research and development, Our parent company has expanded its product portfolio to include tractors, tillers, reapers, and more, catering to the evolving needs of farmers worldwide. As the exclusive overseas marketing and trading partner of KAMCO, Sciontek Machineries Manufacturing PLC is dedicated to bringing these innovative agricultural solutions to a global audience, furthering our mission to empower farmers and drive agricultural progress.

Our Strengths

3 State-Of-The-Art Factory Units
700+ Direct Employees
300+ Contract Employees

Our Vision

To revolutionize farming by delivering sustainable, affordable, and innovative agricultural mechanization solutions.

Our Mission

To revolutionize agriculture through comprehensive mechanization solutions, leveraging cutting-edge technologies and innovative products to boost national agricultural productivity.

Our Expertise

Technical expertise in agricultural mechanization, enables us to craft innovative solutions that boost productivity and efficiency for farmers worldwide

Strong focus on research and development to stay ahead of the curve

Collaborative approach to deliver customized solutions that meet our Client needs

1973 Factory Inauguration
A Legacy Begins

POWER WEEDER

*Horse Power: 9.60 HP
Cubic Capacity: 441 cc
Rated Engine Speed: 3600 rpm
Fuel Tank Capacity: 5 litres*

The power weeder is a versatile machine with back rotary - PTO generating a power of 9.60 HP and the rotavator have 24 blades with with tilling width 685mm . The handle can be rotated to 180° make it more versatile to attach various static and rotary attachments . The machine is suitable for all sort of agricultural, horticultural filed applications

DRONE

*Spraying Capacity: 1 Acre in 7 Minutes
Payload: 10 Liters
Flight Time: 25 Minutes
Pressure Nozzle: Single nozzle * 4
Spraying Width: 4-6 meters
Weight: 25 kg*

Fuselage Agriculture Drone FIA QD10 is a quadcopter with a tank capacity of 10 liters. The total payload capacity is below 25 kg. The flight distance is a 1 km radius, and the flying height is limited to 50 feet. The frame material is aircraft aluminum, and the energy source is two 16000 mAh LiFePO4 batteries. The flight time on a single charge is 25 minutes, and it can cover 1 acre in just 7 minutes. The drone is used for spraying fertilizers, pesticides, and more.
